## EDUCATION

### Sandip University

B.Tech in Computer Engineering

Nashik, India

2023 – 2027

Coursework: Data Structures & Algorithms, Object Oriented Programming, Database Management Systems, Software Engineering, Web Development

### Pratap College

HSC (Science Stream)

Amalner, India

2023 | **67.17%**

## EXPERIENCE

### Paarsh Infotech

Frontend Developer Intern

Nashik, Maharashtra

Jan 2025 – Jul 2025

- Developed responsive and interactive web applications using modern frontend technologies.
- Built reusable UI components and responsive layouts following industry best practices.
- Worked with JavaScript, React concepts, and API integration techniques.
- Collaborated on web development projects using Git and GitHub for version control.
- Improved user experience through optimized and mobile-friendly interfaces.

## PROJECTS

### GoCart – Multi-Vendor E-Commerce Platform

React.js, Next.js, Tailwind CSS, Redux Toolkit, JavaScript

[GitHub]

- Developed a scalable multi-vendor e-commerce platform supporting multiple sellers and customers.
- Built responsive user interfaces using React.js, Next.js, and Tailwind CSS.
- Implemented vendor dashboards for product management, order tracking, and sales monitoring.
- Developed admin functionalities for managing products, vendors, and platform operations.
- Utilized Redux Toolkit for efficient state management across application modules.
- Followed component-based architecture to improve maintainability and code reusability.

### Library Management System

HTML, CSS, JavaScript, PHP, MySQL

[GitHub]

- Developed a login-based Library Management System for managing books and users.
- Implemented book issue and return functionalities with automated record management.
- Integrated MySQL database for efficient storage and retrieval of library data.
- Designed responsive interfaces using HTML, CSS, and JavaScript.
- Improved library operations by automating manual processes.

## SKILLS

- **Frontend:** React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS
- **State Management:** Redux Toolkit
- **Backend:** PHP, REST APIs
- **Database:** MySQL, SQL
- **Programming Languages:** Java, C, C++, JavaScript, Python
- **Tools:** Git, GitHub, VS Code, Eclipse
- **Concepts:** Component-Based Architecture, Responsive Design, OOP, DSA, SDLC

## CERTIFICATIONS

- Certified in Full Stack Development by Paarsh Infotech.
- Full Stack Development Internship Completion Certificate.
- Department Project Completion Certificate.

## ACHIEVEMENTS

- Certificate of Appreciation from Paarsh Infotech for outstanding performance during training.
- Recognized by the department for successful project completion.
- Participated in project presentations, seminars, and technical discussions during B.Tech.

## ADDITIONAL INFORMATION

- **Date of Birth:** 23 November 2005
- **Nationality:** Indian
- **Address:** Nashik - 422213, Maharashtra
- **Languages:** English
